

PixelRing Service Presentation

B2B signage repair, maintenance and brand infrastructure

PixelRing is one accountable service partner for visible brand elements:

- illuminated signs and light boxes
- storefront graphics, posters, menus and POS materials
- audits, maintenance planning and repair coordination
- customer portal visibility for requests and location status

Service Model

1. Intake: one request entry point for the customer.
2. Audit: location checks and visible issue documentation.
3. Execution: human specialists coordinate and complete the work.
4. Portal: status, reports and location overview stay visible.
